No Objection Letter for 70-100BN cylinder oil: ExxonMobil Mobilgard 300 (system oil) and blending on board additive packages from ExxonMobil, BP and PetroChina

Dear Mr Weimar,

Based on experience, MAN Diesel & Turbo has no objection to use the Blending on Board (BOB) concept in the 70-100BN range in our MAN B&W two-stroke engines.

The BOB concept in the 70-100BN range consists of:

- ExxonMobil Mobilgard 300 (system oil), and
- Additive package:
 - ExxonMobil - RT2522-2, or
 - BP – IX0811 BBA / R11014A, or
 - PetroChina – RHY 3532

A cylinder oil consists of the used system oil and one of the above mentioned additive package in the desired concentration. Mixing of the additive packages must not occur.

As MAN Diesel & Turbo does not warrant the performance by the MFT-I equipment or any feed stock or additive package materials, MAN Diesel & Turbo cannot be held responsible for any damage caused by improper use of SEA-Mate© products or the use of blended cylinder oil based used system oil and additive package.

Kind regards
MAN Diesel & Turbo
